

Electronic Portfolio (E-Portfolio)

An electronic portfolio is required for your application to our program.

The portfolio should highlight your interests, hobbies, extracurriculars, work related experiences (paid and volunteer) academics, and anything else you would like to share!

We will evaluate your portfolio on content, creativity, and ease of navigation. It is suggested to organize your portfolio including at minimum these pages:

- About Me Page
- Academic Experiences
- Work Experiences

Please include pictures (pets and family members welcome), videos (optional), sample assignments, and elaborate on information that may or may not be part of your DICAS application. Please note that we thoroughly review your DICAS application, and merely repeating this information will likely not showcase your creativity. Suggested websites to create your portfolio include wix.com, weebly.com, and squarespace.com. Be sure to click “publish” after creating your page to allow the internship team to view.

LinkedIn, Facebook, Instagram, Tik-Tok, and Portfolium profiles will not be accepted to fulfill this application requirement.
