

Preselect Option

Note that this preselect option is only available to applicants with a graduate degree who are applying to the internship.

Applicants interested in early acceptance to the URI Graduate Program (GP) can submit their GP application to DICAS prior to January 13th, the Priority Application Deadline for the [program](#).

Our program has 40 preselect slots per year reserved for applicants who are either:

- Employed by Sodexo in any segment as a manager or a frontline employee, or
- Employed by a Sodexo client **and** are supervised by a Sodexo manager

There are no additional costs for participating in the preselect application process.

Follow the steps below if you would like to participate in the pre-selection process:

- Submit your application to DICAS along with your E-Portfolio and the application fee by August 18th for the Fall Match and January 18th for the Spring Match.

Note: when completing the DICAS application, select that you are applying to programs that do not use D&D Digital. If you are not accepted as a preselect candidate, you have the ability to register with D&D and enter the number in prior to February 15th (Spring) or September 25th (Fall).

If you are planning to apply for the Spring Match, request your transcript early to avoid a delay in obtaining your transcript because of holiday related closures.

- Email Erica Charles, National Director at Erica.charles@sodexo.com with the following information prior to submitting the application to DICAS:
 - Name
 - Name and Address of Sodexo account where you are currently employed
 - Dates of employment with Sodexo or client
 - Name, email and phone number of Sodexo Manager

You will be informed of your acceptance status no later than February 1st (Spring Match) or September 1st (Fall Match). If successful, you do not have to participate in the D&D Digital computer matching. Preselect applicants who are not accepted have time to apply to other programs.
